Description
   The syntax:

   ```
   {filter field="tracker_field_permName" content="NOT "}
   ```

   No longer works in plugin list in 23.x (and possibly 22.x) with elasticsearch.

   It still works fine with the mysql engine, but it definitely fails (and finds everything, empty or not) in es7, 6 and 5.

   More... finally confirmed the last version it worked in was 18.x, 21.x is broken too (also that i could only get 18.x to work properly with es5, 6 and 7 refused to index successfully)

Solution
   The actual problem was with a `Files` field and this was resolved in eded781d , thanks to **@Victor Emanouilov**
