### Description

At tiki-list\_articles.php the top search form is eating way too much space.  
It should be hide-able (not everyone will search something)

See: [https://www.bernardsfez.com/tiki-list\\_articles.php](https://www.bernardsfez.com/tiki-list_articles.php)

I suggest a bootstrap accordion to toggle visible/hidden and avoid such waste of space.

### Solution
