Description

From a quick view it seems there is a best day for the meeting.
however if we take a better look, there 3 possible days.

Instead of pointing (green success colours) to the first top result, there should be a better way to
visually mark the 3 possible options.

@Jonny Bradley, thank you I tested on next and it seems fine...
I had 2 winners... ?

Next step:

- Random selector in case of draw
- Notification to participant to decide which winner is the winner in case of draw
- ...

?
Thanks Jonny

Maybe we can get **@Marc Laporte** and **@Victor Emanouilov** to add some RubixML magic to make the right decision for us?

Meanwhile, i thought the page "admin" should make a decision in the case of a tie - i.e. extend the deadline or pick the date *they* want, for instance? 😁

In case of tie, the facilitator should decide. 😁(privilege and courtesy).
