But they're not actual "buttons" - they are radio buttons so should be styled accordion to https://getbootstrap.com/docs/4.6/components/forms/#radios shouldn't they?

Maybe they would be better converted to a drop down menu perhaps?

@rodrigue.mushid

I understand a fix has been merged 2 weeks ago: https://gitlab.com/tikiwiki/tiki/-/merge_requests/1216

However I don't see a fix here (tested on dev today):

Bernard: master 2 weeks ago is Tiki25, not Tiki24
