Description

It is not possible to change the image banner once one has been uploaded.

See : http://bsfez-11581-7922.show2.tikiwiki.org/tiki-edit_banner.php?bannerId=1

Try to change the banner it shouldn't work.

There is an issue with the image upload.

Solution

It should be possible to re-upload a banner so we can change the existing one.

Comments

Eutyche ODIMBA 08 Dec 21 22:27 GMT-0000

I can't connect to the different servers. The login to access tiki seems to be wrong, "admin and admin".

in the waiting i tried to reproduce the bug locally, by inserting images in network on pixabay and other site of the kind all the images PNG and JPG works. i do not have any problem. however by taking images locally none works. so i propose to seek to know why the importation of the images do not work, then if after the PNG are always functional then i would return on it.

luciash d' being 17 Jan 22 10:52 GMT-0000

The user and pw on http://bsfez-11581-7922.show2.tikiwiki.org/tiki-edit_banner.php?bannerId=1 is admin 12345

Bernard Sfez / Tiki Specialist 09 Dec 21 06:39 GMT-0000

The issue has been clarified.

Eutyche ODIMBA 14 Jan 22 16:29 GMT-0000

the bug is solved: https://gitlab.com/tikiwiki/tiki/-/merge_requests/1200

Bernard Sfez / Tiki Specialist 15 Jan 22 10:15 GMT-0000

@eutyche, doesn't work for me.

At http://bsfez-11581-7922.show2.tikiwiki.org/tiki-edit_banner.php?bannerId=1 I upload a different banner.

the banner filename is changed/updated, the image displayed is the same.

luciash d' being 17 Jan 22 10:45 GMT-0000

Browser cache?

luciash d' being 17 Jan 22 10:51 GMT-0000

Bernard is right. It is not browser cache issue.

luciash d' being 17 Jan 22 10:55 GMT-0000

Is the instance updated to master/trunk/main ?

Bernard Sfez / Tiki Specialist 17 Jan 22 11:31 GMT-0000

I tried several time to update the instance (one more time ? now)

Seems it is broken and that's why I worked on next.t.o

Eutyche ODIMBA 17 Jan 22 13:19 GMT-0000

I have just tested on <http://bsfez-11581-7922.show2.tikiwiki.org/tiki-index.php?page=HomePage>.

I change the banner it works without problems. apparently it was a problem of update of the svn

John Morris 18 Jan 22 01:06 GMT-0000

The same happens when trying to upload logo several times, after the first or second time, it won't work. I'll open a bug report on that separately.

Bernard Sfez / Tiki Specialist 19 Jan 22 15:58 GMT-0000

@**Eutyche ODIMBA**, the filename is changed, not the picture.

Screen Recording 2022 01 19 At 17.56.52

Bernard Sfez / Tiki Specialist 19 Jan 22 16:01 GMT-0000

The instance was updated but it is not reported in the log file.

Marc Laporte 21 Jan 22 05:47 GMT-0000

This is not a comment about if the Tiki bug was corrected or not.

This is a comment about the tool to create and update show instances to demonstrate Tiki bugs (and ease the process of checking if they are fixed.)

Bernard reported above "The instance was updated but it is not reported in the log file."

While it's certainly what he experienced, the root cause was a caching issue on <http://bsfez-11581-7922.show2.tikiwiki.org/info.txt>

The Tiki was updated and <http://bsfez-11581-7922.show2.tikiwiki.org/info.txt> was updated but Bernard's browser was showing a previously cached version (because he was visited that URL before)

The show server should be updated not to cache such files, or have a very short period.

Marc Laporte 21 Jan 22 06:31 GMT-0000

Spin-off:

<https://dev.tiki.org/item8031-Show1-and-Show2-Remove-cache-on-text-files-like-http-bsfez-11581-7922-show2-tikiwiki-org-info-txt>

Bernard Sfez / Tiki Specialist 20 Feb 22 10:53 GMT-0000

@**Eutyche ODIMBA**, good fix, thanks
