- Feature request: record video from webcam in page or post editing

Description
jCapture was understandibly removed from Tiki because browsers deprecated Java applets. Yet, the bug reporting process was not adapted.

To do:

- Make RecordRTC work on dev.tiki.org
- Review all forms and documentation about reporting bugs (which included some parts about jCapture)
- https://dev.tiki.org/Make+a+wish+-+demo+your+bug?itemId=8023
