Description

Searching and trying to using different listing gives random and wrong results.
here I was searching for a recent tracker item I created with the term "Username" in it;

I have checked the unified index freshness (it is ok Your index was last fully rebuilt on Friday 24 December, 2021 07:10:50 IST.) and it should have find me the item I was looking for.

Ultimately the tracker view showed me the item:

It has been also confirmed by Volker on the 25/12/2021 on the user list.
