Description
I stumbled upon this while googling something else (the documentation of Tikis Paypal interface):

https://github.com/romoxi/BobShop

The claim is "BobShop is a shopping cart system for TikiWiki."

So far I haven't taken a deeper look. Has anyone else seen this? Or tested? Advantages/disadvantages compared to CART? Is this independent development or are the authors known or identical with Tiki devs?

I am asking those questions, because

• I am looking for something that accepts more than just Paypal
• Tiki Credit Card integration is in it's infancy

Thanks
hman

There is a public demonstration at https://bobshopdemo.bob360.de/HomePage but unfortunately in German, so you might have to google-translate...

hman 15 Jan 22 20:48 GMT-0000
This demo is run on Tiki 21.2.
