

- Enabled "User can assign himself or herself to the group"
- Set Membership expiry, Number of Days to 365
- Set Pro-rata Membership to "year".

## Payments

- Payment system: Paypal
- Currency: Euro
- PayPal ID: paypal email
- PayPal environment: Production
- Enable PayPal instant payment notification (IPN)
- Enable Payment data transfer (PDT)
- Set the Payment data transfer (PDT) token
- Redirect after PDT payment: [https://dev.domain.org/BernardPremium\\_homepage](https://dev.domain.org/BernardPremium_homepage)

## Subscribe page

I set a plugin:

```
{memberpayment group="BernardPremium" price="1"
returnurl="https://dev.domain.org/BernardPremium_homepage"}
```

---

## Use cases

Notes: payment are completed in all cases and it create an row in the Outstanding table (tiki-payment.php#content\_payment1-1)

If a member of the Admins group subscribe himself and do a manual payment: He is assigned to the group. The user is redirected to tiki-payment.php?invoice=nn (almost good)

If a member of the Admins group subscribe another user and do a Paypal payment: The user is NOT assigned to the group, he is not returned to the Tiki site automatically. If he clicks on "return to merchant" the user is redirected to tiki-payment.php?invoice=nn (bad)

If a registered user and do PayPal payment: The user is NOT assigned to the group, he is not returned to the Tiki site automatically. If he clicks on "return to merchant" he is returned back to "tiki-payment.php?invoice=nn" (bad)

While I'm not getting into the code I understand 2 mechanism are invoked and not working.

Group assignment

Returning from Paypal

I'm not sure if they are required together to have the user assigned.

## Solution

The user didn't set properly his Paypal account.

Hi Bernard,

Was it a issue of Paypal account configuration ?

Bernard Sfez / Tiki Specialist 10 Apr 22 08:28 GMT-0000

Hello Adrien,

It is unclear as I believe this user (it was not one of my Tiki) played with settings back and forth. I retried to help him lately setting up his Paypal account through shared screen and it just worked. With IPN, Without PDT.
