Description

When browsing categories using tiki-browse_categories.php, tracker items with multiple categories assigned do not appear correctly. Blank descriptions.

http://dev.tikiwiki.org/tiki-browse_categories.php?parentId=60&deep=off&type=

Solution

Already fixed on this site. Will be in 1.9.8

You may need to run doc/devtools/cleanCatTrackers.php if your site is affected.

As per Tiki23 browse category doesn't display the description but tiki-admin_categories.php does display the description properly. So it seems this is the way it work. If you still feel you have an issue with this or would like to ask for a change of the behaviour please create a new ticket with details.
