Description
Hello,

We have 2 kind's similar features one is legacy but the interface is more user-friendly and one is modern and powerful with an unusual interface.

Score is a bit limited, use template, a set of badges, it is not possible to design the output, creating an event require file editing, etc...

https://doc.tiki.org/Score-Details
https://doc.tiki.org/Score-Details#Creating_new_event

Goal and recognition is better designed, use the rebuilt-index and relation, allow custom badges and goals, etc...
However the interface is not user friendly or consistent with usual Tiki admin interface.

https://doc.tiki.org/Tutorial---Goals

Ideally we should be able to use the Score admin panel at tiki-admin.php?page=score to set the goal options

PS: I found this (what I Tiki Karma ??? ?): https://doc.tiki.org/Score-vs-Karma
