Related-to

- ● Duration to remember log in
- ☒ Remember me doesn't work on *.tw.o sites

Description

On Tiki24 at tiki-admin.php?page=login you have "Remember me" option to allow users to have longer sessions. (so they won't need to login with password every x minutes).

It use a selector and a "Duration" field.

The selector has the following options:

- Disabled
- User's choice
- Always

While user's choice is working fine "Always" is not working and user has to login again and again.
