Description
It stopped doing anything in master (aka main or trunk) recently for me. When you switch the toggle on, it just highlights the translatable strings on hover but clicking them does not open any dialog to translate these.

To reproduce apply this profile (or set the prefs manually):

```
YAML
preferences:
  feature_multilingual: 'y'
  feature_translation: 'y'
  lang_use_db: 'y'
  language: 'en-uk'
```
