Description

Login, Captcha; If set together, Use reCAPTCHA (Google) and CAPTCHA questions are conflicting and don't allow registration.

On a Tiki 24 and the master instance.

- Enable registration
- Enable Anonymous editors must enter anti-bot code (CAPTCHA)
- Use reCAPTCHA (Google recaptcha 3 and set your account information)
- Enable CAPTCHA questions and add some

On the registration page no questions is presented.

An error is displayed "You have mistyped the anti-bot verification code. Please try again."

Instance shows the issue (you will need to fill FIRST your recaptcha information).

Solution

It should be fixed but in the meantime a message should state how ti is working (if you use re-captcha nothing else).
