Kevin Doyle

### Rating

★★☆☆☆ (0) ?

### Description

The following appeared at top of browser window, when opening most versions of tiki  
Warning: in\_array() expects parameter 2 to be array, bool given in binderlib.php on line 51

I changed: if (in\_array(\$catId, \$descendants)) {

to: if (in\_array(\$catId, array(\$descendants))) {

Now the warning is gone.

IS this OK?
