Description

Reopening — regression in 3.x. See <http://doc.tikiwiki.org/PluginVersion> for an example

Version 3 shows version 3, 2 and 1.

See <http://doc.tikiwiki.org/PluginVersions> and try the test which has more than 2 versions

Solution

preg_replace of separating text should limit to 1 occurrence so that the next step of removing the section after the next tag can work

This has been fixed - lindon.
