Description
  Under Look & Feel
  Layout Tab
  Site logo and title
  /var/www/tiki/tiki-25.2/img/tiki/Tiki_WCG.png
  I keep getting prompted to upload or set the Site Logo image. Which is already set. How does one
turn off this automated behaviour.

Hi @Kevin Doyle,

Thank you for taking the time to report the issue with Tiki. We appreciate your contribution to the Tiki community.
We have attempted to reproduce the issue you described but were not able to do so.
If you are still experiencing the problem, please provide information about the issue. (Any specific steps that you took that led to this behavior, screenshots, show instance, etc.).
However, we want to let you know that version 25.2 is no longer supported, and we strongly recommend a minor upgrade to 25.3, which is still supported, or consider a major upgrade to 26.1.

Thank you again for your contribution and for helping us make Tiki better for everyone.

Best regards,
The Tiki Team
