Description

Problem as described in summary.

Solution

Suggested solution:

add the following lines to calendarlib.php just before calendar is deleted in drop_calendar function

```
// uncategorize calendar
global $categlib; require_once('lib/categories/categlib.php');
$categlib->uncategorize_object('calendar', $calendarId);
// now remove the calendar itself:
...
```

1.9.x CVS Head Revision 1.50 line 120
