Description

Tiki tabs are a nifty feature to make a page cleaner / simpler.

For example for trackers, we have:

[View](#) / [Comments](#) / [Attachments](#)/ [Edit](#)

However, I want to be able to link directly to "edit" so someone could be invited to edit their user tracker or add a bug or add a calendar item.

I would like something like this:

[tiki-view_tracker_item.php?trackerId=5&itemId=978#view](#)

[tiki-view_tracker_item.php?trackerId=5&itemId=978#edit](#)

There seems to be the start of something:

http://dev.tikiwiki.org/tiki-view_tracker_item.php?itemId=980&show=edit

These now work in BRANCH-1-9 but they may change a little

adding an item:

`tiki-view_tracker.php?trackerId=1&show=mod`

view tracker item:

`tiki-view_tracker_item.php?itemId=124&show=mod`

Usr tracker:

`tiki-view_tracker_item.php?view=+user&show=mod`

add, edit would be more logical

Jean-Marc Libs 10 Jan 12 21:19 GMT-0000

In addition to the `show=mod` (which I did not know of but it works):

It has been possible to choose the open tab with `cookietab` and the number of the tab forever. For example adding `&cookietab=4` opens the 4th tab.
