Description

Using 1.9.cvs

RSS of an individual tracker, such as

http://www.moviments.net/valldelcorb/tiki-tracker_rss.php?trackerId=2 , produces

" Tiki RSS Feed Error Message: Permission denied to access this section"

(translated from another language)

I'm doing that even as site user admin.

What's wrong?

The tick in admin > rss is on for all lines (including individual trackers)
