Description

The custom translation strings feature does not seem to work.

The recipe for reproducing this bug can be found here:

- Setup: http://profiles.tikiwiki.org/Multilingual_Wiki#Setting_up_the_site_for_testing
- Reproducing this particular bug:
http://profiles.tikiwiki.org/Multilingual_Wiki#Testing_custom_translated_strings

Solution

I tried to debug it myself (it's function tra()), but it goes into the SQL db, and this is a part of the system I don't understand well.
