- Feature request

Feature

Inline wysiwyg editor

Resolution status

New

Submitted by

Arild Berg

Lastmod by

Pascal St-Jean

Rating

★★★★★ (0) ?

Description

Before starting an inline edit sessions, it must be checked if another editor is active. Similarly, when the inline editor is active, it should not be possible to start another editor (except by override)

Before it is fixed, using the inline editor can cause data loss if more people edit the same page.

Similar functionality is (seemingly) missing other places.
Should be added as a service.
