Description

If 'Store attachments in file galleries' is enabled (`feature_use_fgal_for_wiki_attachments` , in File Gallery admin panel: "Use file galleries for wiki attachments"), a new file gallery is created each time a new wiki page is created.

When you removing a wiki page, the file gallery (which may carry no files at all) is left in place. The user would expect to see an option to remove the file gallery of the attachments too, along with the remove wiki page confirmation step.

Like when attempting to remove a wiki page from a structure: remove wiki page from structure only, or remove wiki page itself also.

Hi Xavi,

Could you point to where the exact feature is? Is it under Wiki Admin? I can get someone from Citadel Rock to take a look at this but just want to make sure it is clear what and where needs to be turned on

thanks

Xavier de Pedro 20 Nov 13 12:30 GMT-0000

feature_use_fgal_for_wiki_attachments , in File Gallery admin panel: "Use file galleries for wiki attachments"

Thanks
