Description
    These settings:
    Theme:
    Slideshows theme:
    here: tiki-admin.php?page=general

    And theses ones:
    Theme Control
    General Layout options (all)
    Edit Templates
    Edit CSS
    Tiki Template Viewing
    Use Tabs
    here: tiki-admin.php?page=features

    And this one:
    Reg. users can change theme:
    here: tiki-admin.php?page=login

    Should be added to a new admin tab "Theme & Layout":
    tiki-admin.php?page=theme

    IMHO, it is OK for options/settings to be in more than one admin panel, if relevant to both.
